I want to credit these funds towards my tuition.

_____Yes   _____No

PLEASE NOTE: Lu Ross has applied to our accrediting agency, NACCAS for approval of Hybrid versions of our programs. The Hybrid course will provide the theory of the program online through Milady MindTap and the practical hands-on will be in the school.

The Milady MindTap digital program had been developed over several years and includes activities, exercises, videos, testing, and a digital portfolio. You will always have access to your teacher in theory to help you. Milady recommends using a Chromebook using Chrome OS with at least an 11.5 inch screen. Laptops and desktop computers will work as well. Smart phones do function but the screen may be too small for a good experience.

 I verify that all information provided in this application is true. I understand that awards and amounts awarded are dependent on eligibility and funding availability. I certify that my request for funding is related to Coronavirus hardship.
